Art Unit 1713

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-30 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Alper et al.

The rejection as set forth under 35 U.S.C. § 102/103 in Paper No. 12 is deemed proper and is herein repeated.

Applicants' remarks as well as the attachment filed in support thereof have been fully considered but have been deemed to be not persuasive.

Applicants' claims are directed to a two component composition which utilizes "comprising" language. The two

components which are required to be incorporated into the composition are seen to be the tackifying resin and a thermoplastic polymer. The claims do not exclude any ingredients. The Alper reference teaches a tackifying resin and a thermoplastic polymer. Applicants have argued that the patentable distinction between the instantly claimed invention and the disclosure of Alper is in that the composition claimed incorporates the tackifying resin in an amount which is less than the "total polymer concentration." The Examiner maintains that the breadth of applicants' claim language "total polymer concentration" incorporates both the styrene isoprene styrene copolymer as well as the aromatic reinforcing resins incorporated in Alper. The Examiner is at a loss to see how the aromatic reinforcing resins as shown by Alper and further discussed in the Hercules attachment are not polymers. To the contrary, the Hercules attachment describes these resins in terms of their monomeric constituents and specifically assigns the terminology "copolymers" to these materials. As such, Alper does teach amounts of "total polymer composition" which are greater than the amount of the tackifier to be added.

In the event that one of ordinary skill in the art would read the claims so as to not include the additional resin as part of the "total polymer composition", then the claims are rendered prima facie obvious from this disclosure. Applicants have failed

Art Unit 1713

to show or allege any unexpected results due to the specifically claimed relative concentrations of the ingredients. To the contrary each of the documents appears to show a desirability in using approximately equal amounts of tackifying resin and thermoplastic polymer. There remains no showing or allegation of record which supports the breadth of the instantly claimed invention.

THIS ACTION IS MADE FINAL. Applicants are reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
